Precipitation probability					
30%	70%	70%	30%	90%	>95%

Forecast for Monday 11 Jan 2021

Weather: A few clear spells at first, but generally cloudy through the early hours with outbreaks of rain. Then a cloudy day with further outbreaks of occasionally heavy rain, with a risk of sleet or wet snow on the higher summits during the late evening.

Chance of cloud free mountain/hill tops above 600m: Near zero in west, 20% in east.

Visibility: Persistent low cloud obscuring tops above 500m in west, but more broken in east with some clearer intervals possible. Rather hazy at lower levels, with occasional rain reducing the views of moderately distant hills.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

A poor day, with limited views and a thaw of frozen ground. Rivers likely to be high due, with boggy ground underfoot. Despite milder temperatures than of late, it will still be feeling cold at height due to strong winds.

Recent rainfall: measured at Malham: altitude 375m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
03:00 on Mon 11 Jan 2021	5.4mm	7.8mm	10.2mm

Forecast for Tuesday 12 Jan 2021

Weather: Outbreaks of rain clearing south during the early hours, but turning to snow above 600m as they clear. Freeze likely across the tops, leading to icy paths and rocks. A largely fine, sunny but cold day follows, with just the outside chance of a light snow shower.

Maximum wind: Northerly 20mph gusting 35mph through the early hours, decreasing to northwesterly 10-15mph through the morning.

Chance of cloud free mountain/hill tops above 600m: 20% during early hours, increasing to near 100% by dawn. Falling to 70% after dusk, with greatest risk in west.

Visibility: Cloud extensive above 450m during the early hours, clearing by dawn. Otherwise very good visibility with some good panoramic views.

Temperature: **Valleys:** Zero Celsius at dawn rising to Plus 4 Celsius.
At 600m: Minus 3 Celsius.
Freezing level: 700m, falling to valley floors by dawn. Rising a little to 300m through daylight hours.
